YOU AND THE LAW: Owens Pomeroy comments on the copyright law and broadcasting OTR. The end of the copyright law reads "for profit." This is the key. If a commercial stations broadcasts OTR as a public service, it is all right as long as the FCC clears it. All stations are allowed 7 hours of public service time a week to be broken up any way they seem fit. As long as a station does not sell air time for the playing of the shows and the FCC gives its okay, you have the right to donate the shows. Owens Pomeroy did this from 1971-75 at a Public Radio Station and during this time supplied Lux Radio Theater to a commercial station as a lead in show for CBS Radio Mystery Theater for 18 months, commercials and all. Again, the important thing was FCC clearance and public service time.

**CBS's Edwards retiring after 45 years.** Broadcast journalism will soon lose one of its legends. CBS News anchor and correspondent, Douglas Edwards, the first anchor of a regularly scheduled CBS television newscast, will retire April 1 after more than 45 years as a broadcaster.

Douglas, 70, joined CBS in December 1942 and was part of the CBS News team of World War II correspondents serving with Edward R. Murrow in London during the closing months of the war in 1945. Douglas anchored the CBS World News Roundup over the CBS Radio Network from 1946 to 1948. (Roundup made its debut in 1938 and currently airs at 8 a.m. NYT.) In August 1948 he assumed the anchor duties on CBS News's first Monday-through-Friday evening television news broadcast, Douglas Edwards with the News, which continued through 1962. Among his other accomplishments, Douglas, who is an Oklahoma native, has been anchoring The World Tonight every weekday evening (6 p.m. NYT) over CBS Radio since 1966. "It has never been dull," said Douglas last week. "I hope my post-CBS life is as exciting."

Said Howard Stringer, president of CBS News: "Douglas' place in broadcasting history as an anchorman and a correspondent has long been secured. Doug will sorely be missed, his accomplishments long treasured." In his weekly newsletter to CBS Radio Network affiliates, Joseph Dembo, vice president, CBS News, radio, described Douglas as the "gentle man with the magnificent voice, a voice of authority and compassion and great believability."

When he retires, Douglas said, he and his wife, May, will move to Sarasota, Fla., where he will begin working on an autobiography. Douglas also plans to continue lecturing on broadcast journalism. He will remain a consultant to CBS News for another two years.
